

Halcyon Mini-Split Air Conditioners and Heat Pumps from Fujitsu

*Halcyon ductless mini-split systems can cut your energy costs by 50% and provide year-round comfort for your home**

As much as half of the energy used in your home goes to heating and cooling. So making smart decisions about your home's heating and air conditioning system can have a big effect on your utility bills — and your comfort.

Fujitsu's mini-splits have high SEER ratings - the higher the SEER rating, the more energy efficient it is. Fujitsu systems have a SEER of up to 26!

Mini-split air conditioners are comprised of an indoor and outdoor unit, which allows for a peaceful inside environment by enabling the contractor to install components like compressors and motors outdoors. You enjoy a comfortable environment without being disturbed.

ENERGY EFFICIENT

- Up to 35% more efficient than the government minimum standard

FEDERAL TAX CREDITS

- Several Energy Star Fujitsu systems qualify for a residential tax credit of up to \$1,500, which applies to equipment cost and labor

QUIET OPERATION

- As soft as a quiet whisper from 3 feet away

INDIVIDUAL ZONING

- Run 1 of 4 zones and save as much as 75% of energy consumption

FUJITSU

*Savings may vary based on model selected, hours of operation and geographical location. Example given based on 26-SEER system versus 13-SEER system.

Is Halcyon Right for You?

1. Is your upstairs a different temperature than downstairs?
2. Does the noise of your window a/c prevent you from hearing the TV?
3. Are you saddened by the thought of losing closet space to ductwork?
4. Are quotes for central air giving you sticker shock?
5. Would you like to lower your utility bill up to 50%*?
6. Do you want a system that switches heating to cooling automatically?
7. Are you tired of paying to cool or heat rooms you don't use?

*If you answered YES to any of these questions
a Halcyon System is right for you.*

Halcyon is for Everyone!

- Provides both heating and cooling for year-round comfort in most climates
- Computer-driven system accurately maintains consistent temperatures
- High energy efficiencies mean lower utility bills
- No ductwork means no mess or loss of closet space
- Quiet operation makes for a peaceful environment
- Easy installation saves time and money
- Individual room temperature by remote control
